## SKILLS

**Languages:** Kotlin, Swift, Python

**Frameworks:** SwiftUI, Jetpack Compose, Android View XML, Flutter, Bootstrap

**Tools Familiar With:** Git, Jenkins, Gerrit, GitHub Actions, Android Studio, VS Code, Figma, Xcode

## EXPERIENCE

**iOS Developer Intern | Inspire Dev Studio | New Delhi, Delhi | July 2024 - Present**

- **CapCap App:** Currently developing **CapCap**, a video editing app combining **UIKit** and **SwiftUI**, with **1000+** active users. Implemented font styling and configuration options. Developing onboarding and authentication SDKs using **Swift Package Manager**, enabling modular integration across apps.
- **Translytic macOS App:** Building Translytic, a macOS application in SwiftUI aimed at simplifying and automating iOS string translations with AI.
- **Product Homepage:** Developing a responsive, visually appealing **homepage** using Next.js and Tailwind CSS to enhance brand presence and showcase product features effectively.
- **Mobile Security:** Implemented Firebase **Cloud Functions** with **App Check** using Node.js to secure backend services and ensure only trusted app instances can interact with the API.

**App Developer Intern | AppSuccessor Media Pvt Ltd | Noida, UP | September 2023 - June 2024**

- Developed an iOS **Soundscape app** with **SwiftUI** and **MVVM architecture**, featuring soothing **music playback** and podcasts. Integrated Firebase for secure login and **Firestore** and **CoreData** for data management.
- Developed Android **PDF Scanner app** with advanced features such as scanning, editing, and offline organization. Utilized **CameraX**, **OpenCV**, **File handling**, **Hilt**, **Room DB in MVVM architecture**. Implemented custom image manipulation for easy adjustment of scanned images.
- Developed **Trakeat**, a calorie tracking app in **compose** with **Firebase authentication**, **Firestore**, **Room DB**, **Koin**, and **Retrofit** with **SSL pinning** for secure API calls.
- Refactored the Android **Soundscape app**, used by over 10K users, in **Flutter**, following best practices. This enhanced app speed by 70% and reduced bugs by 50%. The app features **GetX**, **ObjectBox DB**, **Get\_it**, and the MVVM architecture.

## PROJECTS

**Slide News iOS App | [github.com/firelord/slidenews](https://github.com/firelord/slidenews)**

- News app inspired by **MindInventory's** Dribbble design using **SwiftUI**. Integrated Firebase for secure login and **SwiftData** for efficient data retrieval. Resembles a next-gen **Inshorts** app. Employed **clean MVVM architecture** and crafted custom shapes using **SwiftUI's Path** and **Bézier curve** concept. With smooth animations all over the app for good UX.

**WhatsTrek | [www.whatstrek.com/](https://www.whatstrek.com/)**

- Developed an Android app designed to enhance **WhatsApp** communication by reading notifications and sending **automated replies** based on user-configured **templates**. Integrated **in-app purchases** to unlock premium features and implemented **scheduled messaging** using **WorkManager**.

**JotDown KMP (Kotlin Multi Platform) | [github.com/FireLord/JotDown](https://github.com/FireLord/JotDown)**

- Notes app built with **Kotlin** and **Swift** for robust cross-platform compatibility, featuring Android frontend in **Jetpack Compose** for modern UI design, iOS frontend designed with **SwiftUI** for a native and elegant experience, and **SQLDelight** powering the database with shared logic across both platforms.

## EDUCATION

**B.Tech - Computer Science and Engineering | IMS Engineering College Ghaziabad, AKTU | 2024**
